GOKARAJU RANGARAJU INSTITUTE OF ENGINEERING AND TECHNOLOGY

Computer Science and Engineering,B.tech, 2021-2025

CGPA: 9.2

SRI GAYATRI JUNIOR COLLEGE

MPC, 2018-2020

CGPA: 97%

PROJECTS

CONTESTS FETCHER

[Live Site](#) [Github](#)

- The website fetches contests data of coding platforms from an API and displays their details.
- User can select which platform's contests they want.
- Technologies used are HTML,CSS and Javascript.

QUIZ

[Live Site](#) [Github](#)

- It generates quizzes of multiple categories using an API.
- User can select the category they want their quiz questions to be based on.
- Technologies used are HTML,CSS and Javascript.

COLOR CODE CONVERTOR

[Live Site](#) [Github](#)

- It converts color code of one format into other two formats of RGB,HSL and HEX.
- When a color code is given in one format it converts the color code into other two formats and background color is changed to that color code.

ANIME FINDER

[Live Site](#) [Github](#)

- It finds the anime entered in search bar and displays it's details.
- It contains a random button which displays a random anime.
- An API is used for data.
